Good afternoon,

Thank you for providing the Little Rock Police Department's six-month statistical reports concerning automated license plate reader data under Ark. Code Ann. § 12-12-1805.

After reviewing the records provided, we would appreciate clarification on several items so that we can accurately understand and record the department's response.

1. Duplicate plate-scan totals for 2025

The January 1–June 2025 report and the July 1–December 2025 report each appear to list exactly 111,481,824 license plates scanned.

Please confirm whether 111,481,824 is the correct total for each separate six-month reporting period.

If either figure is incorrect, please provide the corrected record or any existing record containing the correct figure.

2. Date range reflected in the January–June 2025 report

The report identified as covering January 1 through June 2025 contains a Match Outcome Analysis graphic that appears to display data for January through December 2025.

Please clarify whether that graphic represents only the January–June 2025 reporting period or whether it includes data outside that six-month period.

If a separate January–June 2025 Match Outcome Analysis exists, please provide it.

3. July–December 2025 reporting period

The second 2025 report is identified as covering July 1 through December 30, 2025.

Please confirm whether December 31, 2025 data are included in the statistics shown in that report.

If December 31 was excluded, please clarify whether a report covering the complete July 1–December 31, 2025 period exists.

4. Match-outcome categories

The reports state that the Match Outcome Analysis reflects:

- confirmed matches;
- matches that did not correlate to an alert after further investigation; and
- matches that resulted in arrest and prosecution.

The accompanying Flock dashboard, however, appears to use categories such as “Cleared by Arrest,” “Cleared by Other Means,” “Lead Generated,” “Investigation in Progress,” and “Warrant Issued,” along with a broader “Success” metric.

Please identify where in the records provided we can locate the numerical totals for each of the following §

12-12-1805 reporting categories:

- confirmed matches;
- matches that did not correlate to an alert after further investigation; and
- matches that resulted in arrest and prosecution.

If those figures are maintained in a separate record, please provide the existing record containing them.

This request is intended only to clarify the records already provided and to ensure that we do not mischaracterize Little Rock Police Department's reporting.

Thank you for your assistance.
