

ARKANSAS FREEDOM OF INFORMATION ACT REQUEST

SUPPLEMENTAL REQUEST – ADMINISTRATIVE RECORDS RELATING TO AUTOMATED LICENSE PLATE READER (ALPR) PROGRAM

Date: July 7 10, 2026

Custodian of Records
Jacksonville Police Department
City of Jacksonville
#1 Municipal Drive
Jacksonville, Arkansas 72076

RE: Supplemental Arkansas Freedom of Information Act Request – Administrative Records Concerning the City's Automated License Plate Reader Program

Dear Custodian of Records:

I am a citizen of the State of Arkansas and submit this request pursuant to the Arkansas Freedom of Information Act, Ark. Code Ann. §§ 25-19-101 through 25-19-110.

This request supplements my previous request concerning the Jacksonville Police Department's Automated License Plate Reader (ALPR) program.

Purpose of this Request

The purpose of this supplemental request is to better understand how Arkansas's Automated License Plate Reader Act (Act 668 of 2025, codified at Ark. Code Ann. §§ 12-12-1801 through 12-12-1808) is currently being interpreted and administered by Arkansas law enforcement agencies.

I am preparing a comprehensive legislative review examining implementation of Act 668 across multiple Arkansas jurisdictions. The purpose of that review is to evaluate whether the statute, as presently written, provides sufficient guidance regarding transparency, accountability, privacy protections, interstate information sharing, records management, and public reporting, or whether additional legislative clarification may assist both law enforcement agencies and the citizens of Arkansas.

This request seeks to better understand the governmental administration of the City's ALPR program. It is **not** intended to obtain confidential investigative information, protected criminal intelligence, or personally identifying information concerning individual motorists.

I appreciate the City's previous response and the explanation provided concerning its interpretation of Arkansas Code Annotated §§ 12-12-1802 and 12-12-1808. That explanation has been valuable in identifying statutory questions that appear appropriate for legislative consideration. Accordingly, this supplemental request is intended to further distinguish between records documenting governmental administration and records containing confidential captured plate data.

Clarification of Requested Records

This request **does not seek**:

- License plate numbers;
- Vehicle photographs;
- Vehicle images;
- Registered owner information;
- Personally identifying information concerning motorists;
- Confidential investigative records;
- Information specifically protected from disclosure under Ark. Code Ann. § 12-12-1808.

Instead, this request seeks administrative records documenting governmental administration, policy implementation, auditing, compliance, accountability, records management, user oversight, and operation of the City's ALPR program.

To the extent responsive records contain both exempt and non-exempt information, I respectfully request production of all reasonably segregable non-exempt portions pursuant to Ark. Code Ann. § 25-19-105(f).

Requested Records

1. Administrative Records Regarding Audit Logs

Please produce existing records documenting:

- the existence of audit logs;
- categories of information maintained;
- field definitions;
- metadata;
- indexes;
- software documentation;
- retention schedules;
- deletion schedules;
- inventories;
- record descriptions.

This request does not seek disclosure of confidential captured plate data contained within individual audit entries.

The existence of audit logs	Attached	Attached
Categories of Info Maintained	Attached	Attached
Field Definitions	See Below	See Below
Metadata	See Below	See Below
Indexes	See Below	See Below
Software Documentation	See below	See Below
Retention Schedule	30 Days	30 Days
Deletion Schedule	Ongoing	Ongoing
Inventories	Attached	Attached
Record Descriptions	See Below	See Below

Field Definitions are not available

Metadata is maintained on the servers and are event specific

Indexes are not available

Software Documentation:

Both Flock and VehicleManager are browser-based systems that are accessed at the following URLs:

Flock: Flocksafety.com

VehicleManager: vm.motorolasolutions.vom

Record Descriptions are not available

2. Administrative Records Regarding Search Logs

Please produce records describing:

- search log formats;
- field definitions;
- metadata;
- software manuals;
- administrative documentation;
- indexes;
- record descriptions.

Where responsive records contain exempt information, please redact only the exempt information while producing all remaining reasonably segregable portions.

RECORD	FLOCK	VEHICLEMANAGER
Search Log Format	Attached	Attached
Field Definitions	See Below	See Below
Metadata	See Below	See Below
Software Manuals	See Below	Attached
Administrative Documentation	See Below	See Below
Indexes	See Below	See Below
Record Descriptions	See Below	See Below

Field Definitions are not available

Metadata is maintained on the servers and are event specific

There is not a software manual available for Flock

Administrative Documentation is Attached in Policy 10-28

Indexes are not available

Record Descriptions are not available

3. User Accountability

Please produce records identifying:

- user roles;
- administrator roles;
- supervisory responsibilities;
- approval authorities;
- permission groups;
- audit responsibilities;
- oversight procedures.

Passwords, authentication credentials, and cybersecurity information are **not** requested.

User Roles	Attached	Attached
Administrator Roles	Attached	Attached
Supervisory Roles	Attached	Attached
Approval authorities	Attached	Attached
Permission groups	Attached	Attached
Audit responsibilities	Attached	Attached
Oversight procedures	Attached	Attached

VehicleManager Administrator and Supervisory Roles are the same.

4. Outside Agency Participation

Please produce records identifying:

- agencies authorized to participate in Jacksonville's ALPR sharing network;
- participation agreements;
- memoranda of understanding;
- user agreements;
- policies governing interstate sharing;
- policies governing access approval.

This request does not seek records

identifying searches conducted by those agencies.

RECORD	FLOCK	VEHICLEMANAGER
Agencies authorized to participate in Jacksonville's ALPR sharing network	Attached	Attached
Participation agreements	See Below	See Below
Memoranda of understanding	See Below	See Below
User agreements	Attached	Attached
Policies governing interstate sharing	Attached	Attached
Policies governing access approval	Attached	Attached

Participation agreements are maintained by the service provider and are not kept locally.

Memoranda of Understanding: These are maintained by the Service Providers. And, include thousands of MOUs. These are not kept on file locally.

5. Compliance and Oversight

Please produce:

- compliance reviews;
- supervisory audits;
- vendor audits;
- misuse investigations;
- corrective action reports;
- policy compliance reviews;
- annual compliance summaries.

Personally identifying information may be redacted where authorized by law.

RECORD	FLOCK	VEHICLEMANAGER
Compliance reviews	See below	See below
Supervisory audits	See below	See below
Vendor audits	See below	See below
Misuse investigations	See below	See below
Corrective action reports	See below	See below
Policy compliance reviews	See below	See below
Annual compliance summaries		

Compliance Reviews: Not available

Supervisory Audits: Not available

Vendor Audits: These are not available to the end user

Misuse Investigations / Corrective Action Reports: There have been no misuse investigations nor corrective action reports pertaining to our agency.

Policy Compliance reviews: Not available

Annual Compliance Summaries: Not available

6. Administrative Reports

Please produce existing reports identifying:

- number of users;
- number of participating agencies;
- number of administrative audits;
- number of policy violations;
- number of misuse investigations;
- number of exported records;
- number of administrative reviews.

RECORD	FLOCK	VEHICLEMANAGER
Number of users	99	49
Number of participating agencies	1210	2839
Number of administrative audits	0	0
Number of policy violations	0	0
Number of misuse investigations	0	0
Number of exposed records	0	0
Number of administrative reviews	0	0

7. Administrative Metadata

If the City maintains records that it believes are exempt from disclosure because they constitute confidential "captured plate data," please produce any existing administrative records identifying:

- record titles;
- record descriptions;
- record categories;
- software modules maintaining those records;
- retention periods;
- retention schedules;
- dates maintained.

RECORD	FLOCK	VEHICLEMANAGER
Record titles	See below	See below
Record descriptions	See below	See below
Record categories	See below	See below
Software modules maintaining those records	Flock Cloud	MSI Cloud
Retention periods	30 days	30 days
Retention schedules	Continuous	Continuous
Dates maintained	Previous 30 days	Previous 30 days

Record Titles / Descriptions / Categories:

Flock stores the collected data on a cloud system and the record titles / descriptions / categories are set and maintained by Flock.

Motorola Solutions stores the data collected by VehicleManager on a cloud system and the record titles / descriptions / categories are set and maintained by Motorola Solutions.

Basis for Any Withholding

If any requested record is withheld, please identify:

1. the record or category of record withheld;
 2. the specific statutory exemption relied upon;
 3. a brief explanation describing how the exemption applies;
 4. whether reasonably segregable non-exempt material exists;
 5. whether segregation was considered pursuant to Ark. Code Ann. § 25-19-105(f);
 6. if no portion can be produced, an explanation why the record cannot reasonably be segregated.
-

Native Electronic Format

Please provide responsive records electronically in their native format whenever reasonably available, including PDF, CSV, Excel, JSON, XML, database exports, or other electronically maintained formats.

Request for Clarification

The City's previous response explained that certain administrative ALPR records—including audit logs, search logs, access logs, network-sharing records, and related platform records—may be considered confidential under the City's interpretation of Arkansas law.

Because the interpretation of these provisions has become an important subject of this legislative review, I respectfully request that, where responsive records are withheld, the City identify the statutory basis for the withholding and provide sufficient information to understand the nature of the record and the rationale supporting the asserted exemption.

Nothing contained in this request should be interpreted as seeking disclosure of confidential license plate numbers, vehicle images, registered owner information, or other information specifically protected by Ark. Code Ann. § 12-12-1808. Rather, this request seeks administrative records documenting governmental policy, oversight, auditing, accountability, compliance, and operation of the City's ALPR program.

If the City concludes that an entire category of governmental administrative records is exempt because it constitutes "captured plate data" or is otherwise protected, I respectfully request identification of the category of records being withheld together with the legal basis supporting that conclusion. Such information will assist in accurately documenting current administrative practices for purposes of legislative review.

Good Faith Request

This request is submitted in good faith for the purpose of promoting informed legislative review and public understanding of Arkansas's Automated License Plate Reader Act.

If any portion of this request is unclear, overly broad, or may reasonably be narrowed in a manner that would facilitate production of responsive non-exempt records, I welcome the opportunity to confer with the Custodian of Records before responsive records are withheld in their entirety.

I appreciate the time and effort required to process requests of this nature and thank the City and its staff for their professionalism and cooperation.

Respectfully submitted,

John Daniel McKeehan
