Request #CITY-2026-164

Pursuant to the Arkansas Freedom of Information Act, I request electronic copies of public records concerning the City of Sherwood's consideration, evaluation, procurement, contracting, installation, testing, implementation, and operation of its Drone as First Responder (DFR) program. Date Range January 1, 2025 through August 27, 2026 The January 1, 2025 starting date is intended to capture communications preceding the earliest quote or proposal presently identified, including initial vendor contacts, demonstrations, meetings, requests for information or pricing, and internal discussions concerning potential adoption of drone/DFR technology. Records Requested Please provide all email communications, including attachments, sent or received by City of Sherwood employees or officials concerning or referencing the City's drone/DFR program. For purposes of this request, "email communications" includes associated meeting invitations, calendar invitations, electronically transmitted meeting notices, and attachments concerning the requested subject matter. This includes, but is not limited to, responsive communications containing, referencing, or concerning the following names, terms, products, subjects, or concepts: BRINC Motorola Solutions Motorola Drone as First Responder DFR drone Responder Responder drone LiveOps LiveOps DFR SafeGuard SafeGuard Lite Take Off / TakeOff BRINC Station BRINC Nest drone dock launch site rooftop installation roof installation FAA Part 107 remote pilot BVLOS Beyond Visual Line of Sight Certificate of Authorization / COA waiver airspace testing demonstration demo trial free trial pilot program proof of concept infrastructure installation integration Flock / Flock Safety, when discussed in connection with the drone/DFR program ALPR / LPR, when discussed in connection with the drone/DFR program hotlist, trigger, alert, rule, or automated launch, when discussed in connection with the drone/DFR program These terms are provided to assist in identifying responsive records and are not intended to limit the request to records containing those exact words. This request includes otherwise responsive communications identifiable through sender, recipient, email address, or email domain, even where the body of

the communication does not contain one of the search terms listed above. Generic search terms listed above, such as "testing," "trial," "installation," "infrastructure," "Motorola," or "drone," are requested only where the resulting communication concerns or is reasonably related to the City's drone/DFR program. Unrelated records merely containing those words are outside the scope of this request. City Personnel and Outside Parties The request includes responsive communications between or among City officials and employees, regardless of department, including but not limited to: Mayor's Office; Sherwood Police Department; Sherwood Fire Department; Information Technology personnel; purchasing/procurement personnel; finance personnel; legal counsel; Public Works personnel; and any other City personnel involved with the program. The request also includes responsive communications between City personnel and outside parties, including but not limited to: BRINC; Motorola Solutions; Flock Safety; consultants; contractors; vendors; installers; representatives; resellers; distributors; and other governmental agencies. Initial Contact and Procurement History Please specifically include responsive communications concerning: initial contact with BRINC, Motorola Solutions, or any representative, reseller, distributor, consultant, or contractor associated with the proposed drone/DFR system; requests for information, demonstrations, meetings, presentations, pricing, quotes, or proposals; discussions concerning whether Sherwood should evaluate, test, acquire, or implement a DFR system; identification of City personnel or officials involved in initiating or evaluating the project; communications leading to or concerning the December 4, 2025 BRINC/Motorola quote or proposal; revisions, alternatives, or subsequent versions of that quote or proposal; negotiations or discussions concerning pricing, equipment, services, contract length, program configuration, or available alternatives; communications concerning the January 28 and January 29, 2026 quotes or proposals, including discussions of changes from previous versions. Contract Execution, Authorization and Distribution Please specifically include responsive communications concerning: quotes, proposals, pricing, contract terms, contract duration, renewal, cancellation, termination, or amendments; review, approval, authorization, signature, execution, funding, purchasing procedures, procurement requirements, budget authority, or legal review of any agreement; communications preceding, contemporaneous with, or following execution of the March 16, 2026 agreement, including communications

concerning review, approval, authorization, signature, execution, funding, purchasing procedures, budget authority, or the legal effect of the agreement; communications transmitting, circulating, reviewing, discussing, acknowledging, or otherwise referencing the executed March 16, 2026 agreement; communications identifying which City officials, employees, departments, or City Council members received, reviewed, were provided, or were informed of an executed agreement; communications concerning who possessed authority to execute the agreement on behalf of the City; communications concerning whether approval by the Sherwood City Council was required before or after execution; communications concerning any purchase order, requisition, invoice, payment authorization, budget transfer, funding source, or other financial documentation associated with the agreement or program. Trial, Demonstration and Program Characterization Please specifically include responsive communications concerning: characterization of the program as a "trial," "free trial," demonstration, pilot program, proof of concept, evaluation period, or similar arrangement; discussions concerning what equipment, software, services, or infrastructure were included or excluded from any trial, demonstration, or evaluation; discussions concerning the duration of any trial, demonstration, pilot, or evaluation period; discussions concerning whether the City incurred or would incur costs during any trial or demonstration; discussions concerning whether the City could discontinue, cancel, terminate, or "back out" of the program after the first year; communications comparing the terms of a trial, demonstration, or evaluation with the terms of an executed agreement. Installation and Infrastructure Please specifically include responsive communications concerning: costs associated with installation or infrastructure necessary to participate in the program; rooftop equipment or modifications; construction; electrical work; networking; internet or communications services; antennas; mounting equipment; power requirements; launch or docking equipment; modifications at the Sherwood Police Department or other City facilities; contractors or vendors performing installation or infrastructure work; invoices, quotes, estimates, purchase orders, or payments associated with installation or infrastructure. City Council Knowledge and Communications Please specifically include responsive communications concerning: when, how, or by whom members of the Sherwood City Council were first informed or briefed concerning the proposed drone/DFR program; what information, documents,

quotes, contracts, presentations, or other materials were provided to City Council members; meetings, briefings, telephone calls, or discussions with individual City Council members concerning the drone/DFR program; records concerning or memorializing such meetings, briefings, telephone calls, or discussions; preparation for, discussion of, or follow-up concerning presentation of the drone/DFR program to the Sherwood City Council; communications concerning the July 27, 2026 Sherwood City Council meeting; preparation of talking points, anticipated questions, briefing materials, presentations, responses, or explanations for that meeting; communications discussing questions that City Council members or members of the public might ask concerning the program; communications following the July 27 meeting concerning statements, representations, questions, answers, concerns, or information presented during the meeting. Operational, Legal and Policy Communications Please specifically include responsive communications concerning: development, review, revision, approval, or implementation of operational policies or SOPs; legal review of the DFR program; FAA requirements; Part 107 certification or training; BVLOS operations or authorization; Certificates of Authorization or waivers; privacy considerations; data collection; data storage or retention; access controls; auditing; public-records implications; public disclosure; cybersecurity; evidentiary use; operational restrictions or limitations; complaints, concerns, or identified risks associated with the program. Integration With Other Systems Please specifically include responsive communications concerning integration or interoperability between the drone/DFR system and: Flock Safety; automated license plate readers (ALPR/LPR); hotlists; vehicle alerts; automated alerts or triggers; automated or rule-based drone launches; CAD or dispatch systems; Motorola systems; LiveOps; real-time crime center systems; cameras or other surveillance systems; or other law-enforcement databases or technology. This includes discussions concerning whether an alert, hotlist hit, rule, trigger, dispatch event, ALPR detection, or other automated event could initiate, recommend, facilitate, or otherwise relate to deployment of a drone. Attachments and Related Records Please include all responsive attachments transmitted with responsive communications, including but not limited to: contracts; agreements; quotes; proposals; invoices; purchase orders; requisitions; presentations; diagrams; installation plans; technical documents; policies; SOPs; memoranda; talking points; meeting materials;

spreadsheets; pricing documents; product literature; and vendor documentation. For responsive email chains, please provide the complete available chain where reasonably possible so that the context, participants, dates, and sequence of communications are preserved. Electronic and Native Format I request that these records be provided electronically in their existing electronic format where practicable. For emails, please preserve available: sender; recipient; CC/BCC information; date and time; subject; attachment information; and available email metadata. If the City's email-search, archival, or eDiscovery system permits export in a native or searchable electronic format, I prefer that format rather than printed-and-scanned copies. For spreadsheets and other structured electronic records, please provide the original/native electronic files where practicable rather than converting them to PDF. Scope and Clarification This request is intended to obtain records relating to the City's drone/DFR program. It is not intended to require production of unrelated records merely because they contain a generic search term listed above. Likewise, the listed search terms, individuals, departments, vendors, dates, and categories are intended to assist in locating responsive records and are not intended to exclude otherwise responsive records merely because they do not contain a listed keyword. If the City's initial search produces an unusually large volume of potentially responsive records, please contact me before denying the request or undertaking unnecessary production of unrelated material. I am willing to reasonably refine search terms, custodians, or date ranges while preserving the subject matter necessary to reconstruct the history and decision-making process surrounding the DFR program. If records are withheld or redacted, please identify the specific legal authority relied upon for each withholding or category of withholding and release all reasonably segregable non-exempt portions. If responsive records no longer exist, please identify, to the extent reflected in existing records, the applicable records-retention or deletion policy. If no responsive records exist for a particular requested category, please indicate that in the response. Thank you for your assistance and for providing these records electronically.
